- Easy overlay installation
- Supports temporary and permanent installs
- Designed for HID® RP40 readers

To see how it's done, watch our installation video at oloid.com/support/M-tag

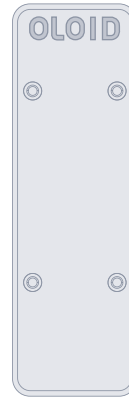

In the Box

Reader cover

Aluminum Plate

M-Tag

Long
roundhead screw

Small
roundhead screws

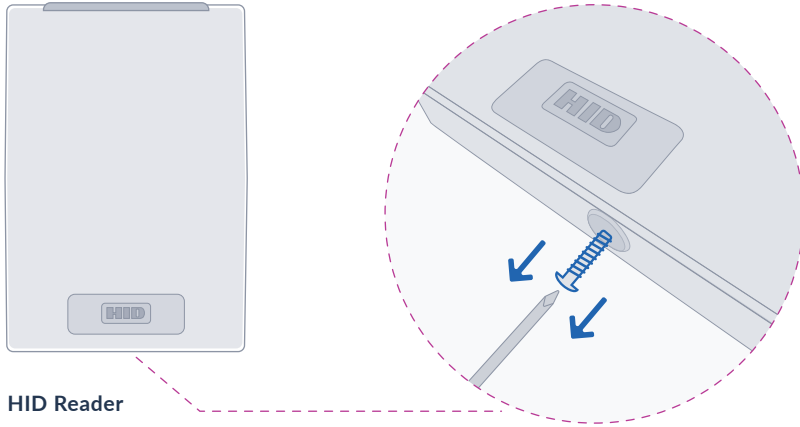

What you need to set up (Not provided):

Philips screwdriver

Step 1:

Remove screw from HID Reader

Remove the screw using the screwdriver from bottom part of the HID reader

Step 2:

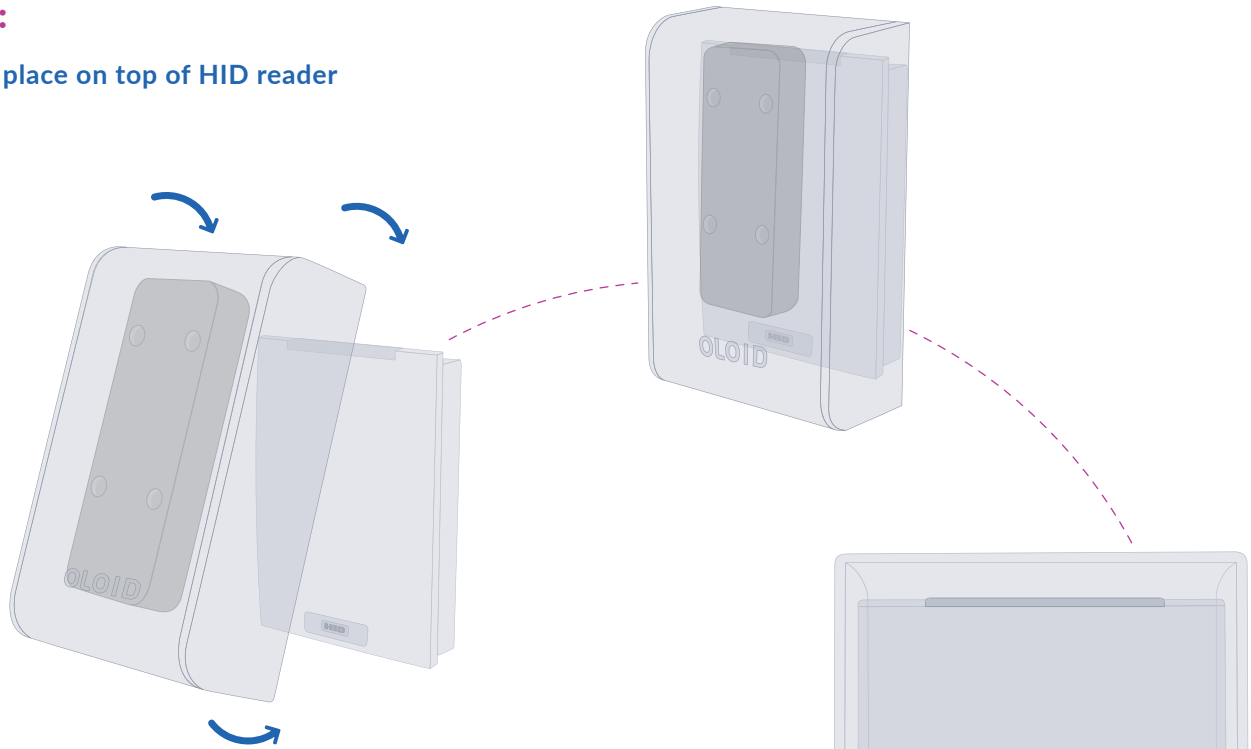

Insert the M-Tag into the reader cover

(This step should be pre-installed, in the occasion it is not, please continue with this step)

Step 4:

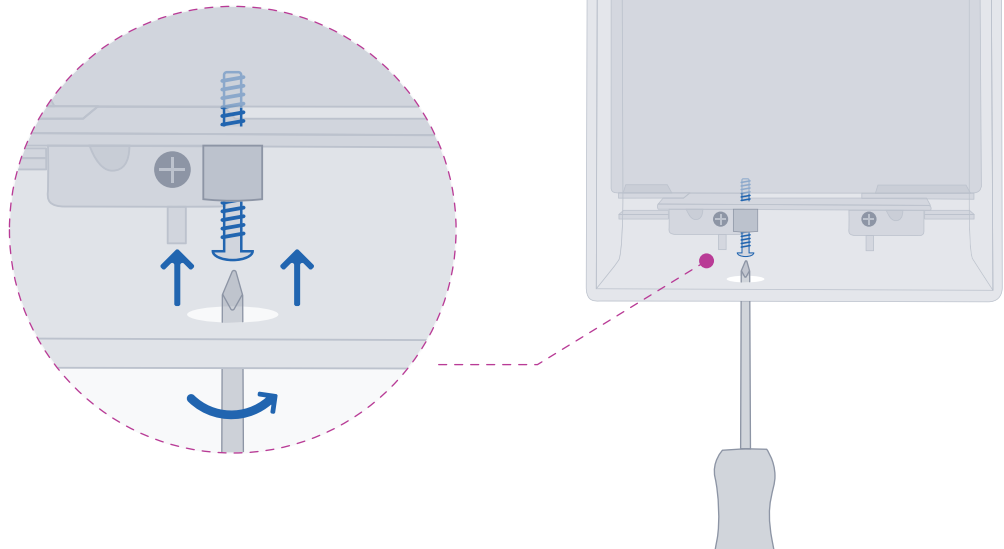

Snap into place on top of HID reader

Step 5:

Screw from the bottom

Fit the long screw from
bottom of the reader cover

Step 6:

Manage your M-Tag

M-Tag Admin helps manage OLOID M-Tag, that mobile enables existing RFID badge readers through retrofit on badge readers & controllers.

Use M-Tag Admin App to set up and provision OLOID M-Tag.

Core Features

- Register M-Tag
- Configure Battery and Performance Modes
- Adjust Bluetooth Distance
- Test and Troubleshoot M-Tags
